In response to the Notice to File Corrected Application Papers mailed on April 5, 2001, enclosed is a copy of the specification and 62 sheets of formal drawings for the above identified patent application. Also enclosed is a copy of the Notice to File Corrected Application Papers. For Figs. 5 and 6, both a copy with corrections (in red), and a formal copy are provided. The corrections expand some abbreviations originally used into full words, correct spelling errors, and in one case (Fig. 6(2)) adds a small amount of additional text thereto. Note that this additional text was allowed by the Examiner in the parent case to which this is a continuation, and accordingly was incorporated into the formal drawings provided which are provided here. Further, note that in a conversation with Mr. James Washington on April 18, 2001, it was indicated that the present drawings would be permissible in that they are the formal drawings of a pending patent application to which the present application is a continuation. Also note that the new text should be permissible since this text is in the corresponding figure (Fig. 6) of this PCT Application Serial No. PCT/US97/15842 from which the present application claims benefit. Note that the text was inadvertently omitted when the font

size in Fig. 6 of the PCT application was increased. A copy of Fig. 6 of the above-identified PCT patent application is also enclosed herewith with the text requested to be added circled in red.

Applicants believe that no fees are due in connection with the filing of this Response to Notice to File Corrected Application Papers. However, in the event any fee deficiencies, it is requested that the below Applicant be contacted by phone as soon as possible.

Respectfully submitted,

SHERIDAN ROSS P.C.
